"There could only be a few winners, and a lot of losers. And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant—and that her lover is married—she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters—strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis—survive and thrive against the indifferent arc of history. *Includes reading group guide*

World Upside Down Christopher Kavin Rowe 2010 No longer can Acts be seen as a simple apologia that articulates Christianity's harmlessness vis-à-vis Rome. Rather, in its attempt to form communities that witness to God's apocalypse, author Kavin Rowe argues that Luke's second volume is a highly charged and theologically sophisticated political document. Luke aims at nothing less than the construction of a new culture - a total pattern of life - that inherently runs counter to the constitutive aspects of Graeco-Roman society.

Interactive Multimedia Learning Johannes Konert 2014-09-05 This book introduces new concepts and mechanisms regarding

the usage of both social media interactions and artifacts for peer education in digital educational games. Digital games in general, and digital educational games in particular, represent an area with a high potential for interdisciplinary innovation, not only from an information technology standpoint, but also from social science, psychological and didactic perspectives. This book presents an interdisciplinary approach to educational games, which is centered on information technology and aims at: (1) improving digital management by focusing on the exchange of learning outcomes and solution assessment in a peer-to-peer network of learners; (2) achieving digital implementation by using forms of interaction to change the course of educational games; and (3) providing digital support by fostering group-formation processes in educational situations to increase both the effects of educational games and knowledge exchange at the individual level. In addition to a systematic analysis of the relationship between software architecture, educational games and social media applications, the book also presents the implemented IT systems' architectures and algorithmic solutions as well as the resulting applicable evaluation findings from the field of interactive multimedia learning.

The Palaeolithic Origins of Human Burial Paul Pettitt

2013-08-21 Humans are unique in that they expend considerable effort and ingenuity in disposing of the dead. Some of the recognisable ways we do this are visible in the Palaeolithic archaeology of the Ice Age. The Palaeolithic Origins of Human Burial takes a novel approach to the long-term development of human mortuary activity – the various ways we deal with the dead and with dead bodies. It is the first comprehensive survey of Palaeolithic mortuary activity in the English language.

Observations in the modern world as to how chimpanzees behave towards their dead allow us to identify 'core' areas of behaviour towards the dead that probably have very deep evolutionary antiquity. From that point, the palaeontological and archaeological records of the Pliocene and Pleistocene are surveyed. The core chapters of the book survey the mortuary activities of early hominins, archaic members of the genus Homo, early Homo sapiens, the Neanderthals, the Early and Mid Upper Palaeolithic, and the Late Upper Palaeolithic world. Burial is a striking component of Palaeolithic mortuary activity, although existing examples are odd and this probably does not reflect what modern societies believe burial to be, and modern ways of thinking of the dead probably arose only at the very end of the Pleistocene. When did symbolic aspects of mortuary ritual evolve? When did the dead themselves become symbols? In discussing such questions, The Palaeolithic Origins of Human Burial offers an engaging contribution to the debate on modern human origins. It is illustrated throughout, includes up-to-date examples from the Lower to Late Upper Palaeolithic, including information hitherto unpublished.

The Muslim World After 9/11 Angel Rabasa 2004-11-17

Momentous events since September 11, 2001-Operation Enduring Freedom, the global war on terrorism, and the war in Iraq-have dramatically altered the political environment of the Muslim world. Many of the forces influencing this environment, however, are the products of trends that have been at work for many decades. This book examines the major dynamics that drive changes in the religio-political landscape of the Muslim world-a vast and diverse region that stretches from Western Africa through the Middle East to the Southern Philippines and includes Muslim communities and diasporas throughout the world-and draws the implications of these trends for global security and U.S. and Western interests. It presents a typology of ideological tendencies in the different regions of the Muslim world and

identifies the factors that produce religious extremism and violence. It assesses key cleavages along sectarian, ethnic, regional, and national lines and examines how those cleavages generate challenges and opportunities for the United States. Finally, the authors identify possible strategies and political and military options for the United States to pursue in response to changing conditions in this critical and volatile part of the world. Strategies to Improve Bali Cattle in Eastern Indonesia Keith William Entwistle 2003 The demand for beef continues to grow in response to increases in population and income. Satisfying this demand has been achieved by government sponsored expansion of the beef sector in some regions, importation of 'boxed' beef and live cattle, and increases in the off-take rate from established cattle populations. Such off-take from the Bali cattle heard in the Eastern Islands has led to speculation of a decline in numbers and loss of genetic merit of this important breed. Against this background ACIAR and CRIAS supported a project to provide a sound basis for government initiatives that support the Bali Cattle herd and the farmers who own and manage these cattle. The project considered the status of past and current breeding strategies and herd improvement programs, whether some of the concerns about herd size and quality are warranted, what breeding strategies would be best suited to the Eastern Islands, and what traits would be given highest priority in a breeding program. The project culminated in a workshop that brought together Indonesian and Australian expertise on Bali cattle production and herd improvement. These proceedings report input to that workshop and recommended strategies for the future development of the Bali cattle herd in eastern Indonesia. *Advances in Fracture and Damage Mechanics XVI* Paolo Maria Mariano 2017-09-05 16th FDM Selected, peer reviewed papers from the Proceedings of the 16th International Conference on Fracture and Damage Mechanics, July 18-20, 2017, Florence, Italy

Okukin Bassey Ekpenyong 2001

Society: An Introductory Analysis Maciver R M 1981 This book is an introductory work in three parts and is concerned primarily with social relationships.

The Glory of Sri Sri Ganesh Mahāśvetā Debī 2003 *The Glory of Sri Sri Ganesh* shows the lives of the underdogs the Lachhimsa, the Rukmanis, the Mohors and the Haroas as a contrast to the lives of their all-powerful overlords the Medinis and Ganeshes. Lachhima, whose leashed bitterness and anger of a lifetime against Medini and Ganesh is liberated at the end of the novel when Ganesh begs her to save his life, decides to save him, but on her own terms. The title of the work itself becomes a tool for subversion in this sprawling novel which takes the reader through a multilayered narrative into the socio-economic malaise of post-independence rural India. Mahasweta Devi's corrosive humour and cryptic style are at their best as she takes on issues of agrarian land relations, inter-caste violence, so-called rural development and position of women in rural India. Considered one of Mahasweta Devi's most important works, this novel, written in 1981, appeared shortly after her seminal *Chotti Munda and His Arrow*. The hope of liberation contained in *Chotti Munda* continues in this book. As the author says, *Chotti Munda* talked of the dream of the dispossessed tribals uniting in struggle with the equally marginalized low caste communities; while this novel shows how being landless and being born low caste is almost inevitably linked in India. Mahasweta Devi is one of India's foremost writers. Her powerful fiction has won her recognition in the form of the Sahitya Akademi (1979), Jnanpith (1996) and Ramon Magsaysay (1996) awards, the title of Officier del Ordre Des Arts Et Des Lettres (2003) and the Nonino Prize (2005) amongst several other literary honours. She was also awarded the Padmasree in 1986, for her activist work among dispossessed tribal communities. Ipsita Chanda is a translator who also teaches Comparative Literature in Jadavpur University.
