**How To Build A Family** Kate Ferdinand 2023-05-04 When I started out on this journey, it all seemed pretty simple: I thought that love would be enough to see me through. I had no idea what it would take to create a fully blended family - just how many factors and emotions would be involved or how deep it would all go. How To Build A Family is the nurturing handbook I wish I'd been given. In it you'll find my experiences, as well as those of other blended families (because every family is unique), along with advice and tips from the experts who have guided me. Some key areas we'll look at are: Dealing with grief and divorce Helping the kids to accept you Moving into the family home and how to make changes Managing comparisons to previous partners Building positive relationships with the wider family I'm not going to pretend I have all the answers, but I will say that if you can just stick with it through the downs as well as the ups, being a stepparent can be one of the most rewarding things you'll ever do. My goal is to encourage, inspire and support families everywhere, and I really hope you find this book helpful.

**Funhouse** Diane Hoh 2012-03-27 A high schooler suspects that a

tragic roller coaster crash wasn't an accident. If it weren't for the Boardwalk, the small town of Santa Luisa might disappear altogether. The amusement park employs half the town's workers, pulls in tourists, and gives teenagers like Tess Landers someplace to hang out on the weekends. Tess is eating a hot dog when the Boardwalk's roller coaster—the Devil's Elbow—jumps the track, hangs for a moment in the air, and then plummets to the ground. One of Tess's classmates is dead on impact, two are forever maimed, and over twenty others are taken to the hospital. It's the worst tragedy Santa Luisa has ever seen, but it's only the beginning. As people rush to help, Tess spies a black-suited figure running away from the crowd. The crash was no accident. Five more teens will suffer before the killer is through, and Tess may be about to put herself on the list of victims. This ebook features an illustrated biography of Diane Hoh including rare photos and never-before-seen documents from the author's personal collection.

I Will Survive Gloria Gaynor 2014-03-11 I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became

synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

The Sumatra Railroad H. Hovinga 2010-01-01 This is the gripping historical tragedy of the 220 km railroad that bored its way through the hot, humid Sumatran jungle during World War II. The railway was commissioned by Japan and built with the blood and tears of Allied prisoners of war and press-ganged Javanese romushas. Henk Hovinga interviewed nearly one hundred former railroad workers and did painstaking archival research. The result is a moving book, richly illustrated with numerous authentic drawings of life in the internment camps, charts and photographs.

Normally, these two would never meet, but a higher power has different plans for both of them.
