I Heard You Paint Houses Charles Brandt 2016-06-24 The inspiration for the major motion picture, THE IRISHMAN. Includes an Epilogue and a Conclusion that detail substantial post-publication corroboration of Frank Sheeran's confessions to the killings of Jimmy Hoffa and Joey Gallo. "Sheeran's confession that he killed Hoffa in the manner described in the book is supported by the forensic evidence, is entirely credible, and solves the Hoffa mystery." — Michael Baden M.D., former Chief Medical Examiner of the City of New York "Charles Brandt has solved the Hoffa mystery." —Professor Arthur Sloane, author of

Hoffa "It's all true." — New York Police Department organized crime homicide detective Joe Coffey "I heard you paint houses" are the first words Jimmy Hoffa ever spoke to Frank "the Irishman" Sheeran. To paint a house is to kill a man. The paint is the blood that splatters on the walls and floors. In the course of nearly five years of recorded interviews, Frank Sheeran confessed to Charles Brandt that he handled more than twenty-five hits for the mob, and for his friend Hoffa. He also provided intriguing information about the Mafia's role in the murder of JFK. Sheeran learned to kill in the US Army, where he saw an astonishing 411 days of active combat duty in Italy during World War II. After returning home he became a hustler and hit man, working for legendary crime boss Russell Bufalino. Eventually Sheeran would rise to a position of such prominence that in a RICO suit the US government would name him as one of only two non-Italians in conspiracy with the Commission of La Cosa Nostra, alongside the likes of Anthony "Tony Pro" Provenzano and Anthony "Fat Tony" Salerno. When Bufalino ordered Sheeran to kill Hoffa, the Irishman did the deed, knowing that if he had refused he would have been killed himself. Charles Brandt's page-turner has become a true crime classic.

Child of All Nations Pramoedya Ananta Toer 1996-05-01 In *Child of All Nations*, the reader is immediately swept up by a story that is profoundly feminist, devastatingly anticolonialist—and full of heartbreak, suspense, love, and fury. Pramoedya immerses the reader in a world that is astonishing in its vividness: the cultural whirlpool that was the Dutch East Indies of the 1890s. A story of awakening, it follows Minke, the main character of *This Earth of Mankind*, as he struggles to overcome the injustice all around him. Pramoedya's full literary genius is evident in the brilliant characters that populate this world: Minke's fragile Mixed-Race wife; a young Chinese revolutionary; an embattled Javanese peasant and his impoverished family; the French painter Jean Marais, to name just a few.

Home Leila Chudori 2015-10-13 An epic historical saga, *Home* expands Oscar-nominated documentary *The Act of Killing*'s scope to delve into Indonesia's tragic 20th century

Babylon's Burning Clinton Heylin 2007 Featuring bands such as the Ramones and Nirvana, this history of punk and grunge details the seminal bands of each movement, as well as looking at the political and social trends which helped to shape the music.

Man Tiger Eka Kurniawan 2015-09-01 A wry, affecting tale set in a small town on the Indonesian coast, *Man Tiger* tells the story of two interlinked and tormented families and of Margio, a young man ordinary in all particulars except that he conceals within himself a supernatural female white tiger. The inequities and betrayals of family life coalesce around and torment this magical being. An explosive act of violence follows, and its mysterious cause is unraveled as events progress toward a heartbreaking revelation. Lyrical and bawdy, experimental and political, this extraordinary novel announces the arrival of a powerful new voice on the global literary stage.

The Question of Red Laksmi Pamuntjak 2016-07-12 In this sweeping saga of love, loss, revolution, and the resilience of the human spirit, Amba must find the courage to forge her own path. Amba was named after a tragic figure in Indonesian mythology, and she spends her lifetime trying to invent a story she can call her own. When she meets two suitors who fit perfectly into her namesake's myth, Amba cannot help but feel that fate is teasing her. Salwa, respectful to a fault, pledges to honor and protect Amba, no matter what. Bhisma, a sophisticated, European-trained doctor, offers her sensual pleasures and a world of ideas. But military coups and religious disputes make 1960s Indonesia a place of uncertainty, and the chaos strengthens Amba's pursuit of freedom. The more Amba does to claim her own story, the better she understands her inextricable bonds to history, myth, and love."

Sophie's World Jostein Gaarder 2007-03-20 One day Sophie

comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

House of Glass Pramoedya Ananta Toer 1997-07-01 With House Of Glass comes the final chapter of Pramoedya's epic quartet, set in the Dutch East Indies at the turn of the century. A novel of heroism, passion, and betrayal, it provides a spectacular conclusion to a series hailed as one of the great works of modern literature. At the start of House of Glass, Minke, writer and leader of the dissident movement, is now imprisoned—and the narrative has switched to Pangemanann, a former policeman, who has the task of spying and reporting on those who continue the struggle for independence. But the hunter is becoming the hunted. Pangemanann is a victim of his own conscience and has come to admire his adversaries. He must decide whether the law is to safeguard the rights of the people or to control the people. He fears the loss of his position, his family, and his self-respect. At last Pangemanann sees that his true opponents are not Minke and his followers, but rather the dynamism and energy of a society awakened.

The Rainbow Troops Andrea Hirata 2013-02-05 Published in Indonesia in 2005, The Rainbow Troops, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening

poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's The Kite Runner: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

The Book of Ingenious Devices / Kitáb al-Ḥiyal 1978-12-31 skilled in geometry, ingenious devices (!lival), music and astronomy. According to Ibn al-Nadīm and Ibn Khallikān their weakest subject was astronomy, but this seems to conflict with the opinions of Ibn Yunus and al-Bīrūnī, both good judges, who spoke highly of the accuracy of the Banu Musa's astronomical observations. Muḥammad, who was the most influential of the brothers, specialised in geometry and astronomy, and excelled Almad in all the sciences except in the construction of ingenious devices. Al-l: Iasan was a brilliant geometrician with aretenlive memory and great powers of deduction. A rival onee tried to discredit him in front of al-Ma'mun by saying that al- l: Iasan had read only six of the thirteen books of Euclid's Elements. Al-l: Iasan replied by saying that it was unnecessary for him to read the remainder because he could arrive at the answers to any of Euclid's problems by deduction. Al-Ma'mun acknowledged al-l: Iasan's skill, but did not excuse him, saying: "laziness has prevented you from 2 reading the whole of it-it is to geometry as the Ictters a, b, t, 111 are to speech and writing. " (H. 264). Al-l: Iasan is rarely mentioned by name elsewhere in the sources and

may have preferred to devote his time to scholarship, whereas his brothers were involved in a variety of undertakings. At the time of their entry into the House of Wisdom the Banu Musil were poor and needy (H).

The Islamic Invasion Ph. D. Robert a. Morey 2011-08 The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated. The Islamic Invasion As Mosques appear across the country people are asking-"What do I need to Know about Islam?" Islam-once an obscure Middle Eastern religion-has rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States! What attraction does

Islam hold for its followers? What part does it play in shaping the outlook and attitudes of nearly one billion people? Noted author Dr. Robert A. Morey, internationally recognized authority on the origins of the teachings and rituals of Islam- - explores the pre-Islamic history of Allah, and the doctrines and customs of Islam - reveals Islam's teaching about current issues such as religious freedom and the role of women The Islamic Invasion will give you the insight you need to understand Islam and the challenge it poses today. Dr. Morey warned the United States and Europe about Islam during the early 1980's long before 9/11. Most books on Islam since 9/11 have used his analysis of the Qur'an or Hadith. Special thanks to Professor Colin Akridge-who is a Vietnam Veteran and black scholar in the field of comparative religions-for his valuable and insightful contributions and working with him for researching and writing the section entitled The Black Muslim Movement in America. Beauty Is a Wound Eka Kurniawan 2015-09-08 The English-language debut of Indonesia's rising star. The epic novel Beauty Is a Wound combines history, satire, family tragedy, legend, humor, and romance in a sweeping polyphony. The beautiful Indo prostitute Dewi Ayu and her four daughters are beset by incest, murder, bestiality, rape, insanity, monstrosity, and the often vengeful undead. Kurniawan's gleefully grotesque hyperbole functions as a scathing critique of his young nation's troubled past:the rapacious offhand greed of colonialism; the chaotic struggle for independence; the 1965 mass murders of perhaps a million "Communists," followed by three decades of Suharto's despotic rule. Beauty Is a Wound astonishes from its opening line: One afternoon on a weekend in May, Dewi Ayu rose from her grave after being dead for twenty-one years.... Drawing on local sources—folk tales and the all-night shadow puppet plays, with their bawdy wit and epic scope—and inspired by Melville and Gogol, Kurniawan's distinctive voice brings something luscious

yet astringent to contemporary literature.

The Land of Five Towers (English Edition) A. Fuadi 2013-12-17 "Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the

jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase man jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. Electrostatic Ignitions of Fires and Explosions Thomas H. Pratt 2010-09-07 Tom Pratt, a long-time process safety practitioner and lecturer in electrostatic safety, wrote this book to educate industry in the basics of electrostatics. It offers a selected collection of information designed to give readers the tools they need to examine the hazard potential of common industrial processes. Among the topics addressed are separation and accumulation of charge, discharge, minimum ignition energies, discharge energies, electrification in industrial processes, design

and operating criteria, measurements, quantification of electrostatic scenarios. A selection of case histories helps illustrate sources of electrostatic ignition of combustibles, and strategies for preventing such incidents.

Science and Religion Holmes Rolston 2011-01-15 This landmark book, first published in 1987, is now back in print, with a new introduction by its award-winning author. An interdisciplinary approach to the central themes of scientific and religious thought, this book was widely heralded upon its publication for the richness and depth of its contribution to the science and religion dialogue. "notable for its breadth and depth . . . filled with admirably argued and powerfully presented treatments of critical issues."—Joseph Pickle, Colorado College, *Zygon: Journal of Religion and Science* "a superb and subtle book."—David Foxgrover, *Christian Century* "a monumental work . . . [T]he book is truly outstanding."—John H. Wright, *Jesuit School of Theology, Berkeley, Theological Studies* "Rolston's presentation of the methods of science, along with up-to-date summaries of the main achievements of the various sciences, is commendable for its clarity and critical acumen."—Choice According to Holmes Rolston III, there are fundamental questions that science alone cannot answer; these questions are the central religious questions. He uses the scientific method of inquiry to distill key issues from science, and then he integrates them in a study that begins with matter and moves through life, mind, culture, history, and spirit. Incorporating religious and scientific worldviews, he begins with an examination of two natural sciences: physics and

biology. He then extrapolates examples from two human sciences: psychology and sociology. Next, he moves to the storied universe and world history, raising and addressing religious questions.

"Never in the histories of science and religion have the opportunities been greater for fertile interaction between these fields, with mutual benefits to both," states Rolston. The republication of this book provides current researchers and students in the field an invaluable, timeless methodological resource. The new introduction offers updated insights based on new scientific research.

Emerging Challenges and Trends in TVET in the Asia-Pacific Region S. Majumdar 2011-07-23

The Asia-Pacific countries are in various stages of socio-economic development. Geo-political factors affect the pace of development of the countries in the area also referred to as the Colombo Plan region. TVET's acknowledged importance in the efforts to improve the quality of life of its people is a common motif in the book. The twenty articles by TVET experts and practitioners as well as policy makers provide the reader researcher with a comprehensive appreciation of the respective TVET problems and issues in the countries included. The book is the latest attempt to put under one cover both macro and micro views of TVET, underscoring its current status, emerging trends, best practices and challenges that beset individual systems. The book presents a comprehensive body of TVET information for use as a handy reference, both by serious researchers and national policymakers, also by practitioners on how TVET plays a pivotal role in national socio-economic development. The experiences shared can be models of "systems that worked," learning from them and "avoiding the pitfalls." They further emphasize that "no one solution fits all" when addressing the gamut of challenges and concerns, the resources required and the preferred mindset when implementing TVET reforms.

The Fourth Industrial Revolution Klaus Schwab 2017-01-03

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and

the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Footsteps Pramoedya Ananta Toer 1996-05-01 As the world moves into the twentieth century, Minke, one of the few European-educated Javanese, optimistically starts a new life in a new town: Betawi. With his enrollment in medical school and the opportunity to meet new people, there is every reason to believe that he can leave behind the tragedies of the past. But Minke can no more escape his past than he can escape his situation as part of an oppressed people under a foreign power. As his world begins to fall apart, Minke draws a small but fervent group around him to fight back against colonial exploitation. During the struggle, Minke finds love, friendship, and betrayal—with tragic consequences. And he goes from wanting to understand his world to wanting to change it. Pramoedya's full literary genius is again evident in the remarkable characters that populate the novel—and in his depiction of a people's painful emergence from colonial domination and the shackles of tradition.
